*Photo Chemical Systems, Inc. was founded on June 1, 1972 to serve the screen printing industry with capital equipment, chemicals and supplies.*

*We are proud to be celebrating over forty years of strong partnering relationships with our customers and suppliers.*

*Photo Chemical offers quality products at superior prices that represent the latest in technology and innovation.*

*We have also assembled a staff that can provide assistance in product selection and technical support.*

*Please call on us to assist you with product or process information questions.*

*As we continue to grow and expand, Photo Chemical Systems will continue to add cutting-edge products and equipment for all screen printing applications.*

*Check in with us on a regular basis in order to receive the latest in product and technical developments.*
