 REF. NO: _____
 日期: 2017-8-15
 Date: _____
 主办: Shengyi QA Dept.
 F M: _____

Dear Customer,

As the implementation of REACH Directive, the ECHA, European Chemicals Agency, has successively published 17 lists of SVHC so far (total 174 items as appendix) and the latest list had been finished review and started to implement on Jul 7, 2017. ECHA states the following requirement for suppliers of articles.

"EU or EEA suppliers of articles which contain substances on the Candidate List in a concentration above 0.1%(w/w) have to provide sufficient information, available to them, to their customers or upon requests, to a consumer within 45 days of the receipt of the request. This information must ensure safe use of the article and as minimum contain the name of the substance."

Based on the survey of our raw material suppliers and production processes, we assure all Shengyi products meet the SVHC concentration <0.1% specified in REACH Directive. As per the request, we'll fulfill the obligation of notification. Therefore, to all of Shengyi customers, we hereby inform that the listed chemicals (174substances) in the currently effective SVHC as appendix are less than 0.1% in Shengyi products.

Thanks and best regards.
