

DYNACHEM®
AUTOMATIC LAMINATION TECHNOLOGIES

Where Innovation is Nothing New

BEFORE LAMINATION

Horizontal Loader
mod. 0439

Multipurpose Accumulator AF40

Radiant Pre-Heater PH 8130
+ Teknek Cleaning module

LAMINATION

Automatic Cut Sheet Laminator
SmartLam® 5200

Semi-Automatic Laminator
SA 3224 S1

VACUUM LAMINATION

Automatic Vacuum Lamination Line
AVL24-S2
with Silicon rubber conveyor

Cutting Station Device S2

Vacuum Applicator
VA 7224 HP7

SmartSpray serie S3

Laminator Roll-to-Roll
RTR 3224

Cover Sheet Remover
CSR 2730

Established in 1985, the company is located in Italy and is a worldwide leader in supplying dry film imaging equipment to the printed circuit board (PCB) industry.

Automatic Lamination Technologies – DYNACHEM® has over 35 years of proven experience, independent, privately-held company fully dedicated to design, manufacture and offer high Technology equipment to the PCB, chemical milling, semiconductor and photovoltaic industries in supplying dry film imaging equipment, primarily with Hot Roll laminators, Vacuum Lamination and Solder-Mask Spray coating units.

Italian design
